UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF NEW YORK

- - - - - X

UNITED STATES OF AMERICA

-against-

MICHAEL KELLY REINER,

Defendant.

- - - - - X

EASTERN DISTRICT OF NEW YORK, SS.:

Angela Hammons, being duly sworn, deposes and says that she is a Special Agent with the United States Department of Homeland Security, Bureau of Immigration and Customs Enforcement ("ICE"), duly appointed according to law and acting as such.

On or about September 12, 2006, in the Eastern District of New York, the defendant MICHAEL KELLY REINER did knowingly and intentionally possess materials containing images of child pornography, which images had been mailed, shipped and transported in interstate and foreign commerce by computer.

(Title 18, United States Code, Section 2252A(a)(5)(B)).

The source of my information and the grounds for my belief are as follows:¹

1. I have been employed as a Special Agent of ICE since May 1997, and am currently assigned to the Long Island

¹ Because the purpose of this affidavit is merely to establish probable cause to arrest, I have not set forth all of the facts and circumstances concerning this investigation of which I am aware.

COMPLAINT
M. NO. 06 1 010
(18 U.S.C. §
2252A(a)(5)(B))

office, Resident Agent in Charge. Since 1999, I have been assigned to investigate Sexual Exploitation of Children ("SEOC") violations of federal law, including the trafficking of child pornography. I have gained expertise in the conduct of such investigations through training in seminars, classes, and daily work related to conducting these types of investigations, including the execution of numerous search warrants relating to child pornography offenses and subsequent prosecution of offenders.

2. I am familiar with the facts and circumstances of the instant case based on first-hand observations during the investigation, my review of documentary evidence obtained during the course of this investigation and discussions with other law enforcement agents.

THE INVESTIGATION

3. On or about August 4, 2006, the defendant MICHAEL KELLY REINER ("REINER") attempted to cross the border from the United States into Canada at the Prescott, Ontario, port of entry in Ontario, Canada, en route to Ottawa, Ontario, Canada. He exited Ogdensburg, New York, and was stopped by officers from the Canadian Border Services Agency ("BSO"). REINER was referred to a routine secondary examination of his automobile and its contents. During the secondary interview, BSO officers examined REINER's personal laptop computer and found approximately 45,000 images of which approximately 1,000 images were of young boys in sexually

provocative poses. These boys appeared to range in ages from 4 to 16 years old and wore bathing suits or underwear.

4. During an interview with the BSO officers, REINER provided the BSO officers with his passport and driver's license. He stated that his address was 82 Pengon Circle, East Meadow, New York. When asked why he possessed the images of young boys, REINER answered, in sum and substance, that he had downloaded some of the images from the Internet and that some had been forwarded to him by other people. REINER stated, in sum and substance, that he had a fetish for young boys, slavery and cannibalism, although he claimed that he did not actually practice cannibalism. He further stated in sum and substance "I like kids, they're fun. I'm a school teacher for grades 4,5,6 at Long Island School for the Gifted. I joke with them; I say I'm going to eat them, but I'm only joking; The kids always laugh."²

5. REINER further stated to BSO officers, in sum and substance, that he was traveling to Canada to visit a friend, John Doe, an individual whose identity is known to the United States Attorney, with whom he established and operated a website called "heritageprepservices.com." This website was intended to be accessed by people who shared REINER's interest in young boys, slavery and cannibalism. REINER explained that the provocative images of young boys contained in his laptop could be used for this

² REINER is currently working as an elementary school teacher at the Long Island School for the Gifted. The school is located at 165 Pidgeon Hill Road in Huntington Station, New York and provides classes for children in kindergarten through the ninth grade.

website. John Doe was a software developer and did most of the work to establish and maintain the heritageprepservices.com website.

6. REINER allowed BSO officers to logon to his laptop computer and enter the heritageprepservices.com website using his login and password, through a wireless telephone connection to the Internet. BSO Officers observed that the home page for heritageprepservices.com was titled "Slave Training Programs." Below the title was a picture of what appeared to be a young male with a leather strap around his head and a black object in his mouth, similar to a harness used on a horse. Other sub-menus included "Long Pig³ Preparation," "Summer Camps," "Eboy Auctions" and "Heritage Store." As part of the instructions for filling out the "Heritage Summer Camps 2006 Application," under "Boy's Details," the application read, "Please also provide a description of how he feels about the prospect that he may be eaten." Under the section of the application titled "Reproductive sample" the application read, "For boys who have reached puberty, Heritage offers a 10% rebate on fees (in arrears) in exchange for a reproductive sample to be used for long pig breeding." Under the "Development Directions (Long Pig Camp)," the pull-down menu in the "Preferred Method of Execution" question included "throat slit, drowning, knife through..." and the pull-down menu in the "Preferred Cooking Method" question included "oven roast, split

³ "Long Pig" appears to be a slang term relating to cannibalism which refers to human beings.

roast, barbecue, etc." The website contained a disclaimer that stated its contents were fictional. Printouts of pages from this website are attached as Attachment A.

7. When BSO officers asked REINER if he had possessed any images of child pornography on his laptop computer, he responded, "No, I'm almost positive there isn't. People have sent that type of stuff but I erase it." Failing to find images of child pornography on the laptop or in REINER's automobile, the BSO officers permitted REINER entrance into Canada.

8. Additional attempts to logon to the heritageprepservices.com website were unsuccessful on August 5, 2006. BSO officers read a notice on the website from "Crimson" that stated that it was shut down because "maybe it's time to move on. I wasn't quite ready to do this so suddenly, but recent events have caused me to rethink and I think maybe now is the time."

9. On or about August 8, 2006, REINER attempted to re-enter the United States from Prescott, Canada at the Ogdensburg, New York, crossing and he was stopped for an examination by United States Customs and Border Protection Officers ("CBP"). CBP officers found several images of children stored on REINER's laptop computer, but the images did not appear to be child pornography. The provocative images of young boys that BSO officers previously observed on REINER's laptop computer on August 4, 2006, appeared to have been removed from the laptop computer's file directory.⁴ The

⁴ CBP officers were not able to conduct a thorough forensic examination of the laptop computer to determine if the contents of the hard drive had been deleted.

following websites were also observed to be stored on REINER'S laptop computer:

- "Adultforums.com" (a pornographic website for adults),
- "Community.fleshdonor.org" (a message board concerning cannibalism),
- "corasbabycloset.com" (boutique for baby clothes),
- "kidburger.hu," and
- "missingandmurderedchildren.facesofthemissing.org" (a factual reporting of current abductions of children).

In addition, REINER had previously conducted internet searches for the following terms in "images.google": "human meat," "kidburger," "human steak," "manbeef," "kidchops" and "kidmeat." REINER was eventually admitted into the United States by CBP officers.

10. On September 12, 2006, an application in the United States District Court for the Eastern District of New York for a search warrant for the residence of REINER, located at 82 Pengon Circle, East Meadow, New York 11554, was denied.

11. Thereafter, on September 12, 2006, I and other agents conducted an interview of REINER at the Long Island School for the Gifted. During this interview, REINER gave me written consent to search his residence located at 82 Pengon Circle, East Meadow, New York ("REINER's residence"). A copy of this written consent is attached as Attachment B.

12. Pursuant to REINER's consent, ICE agents discovered and seized a laptop computer, desktop computer and external hard drives from REINER's residence. REINER's brother owns REINER's residence and lives there with his wife and two young boys. The

seized computers and equipment were located in REINER's bedroom and office room, which were locked on September 12, 2006. REINER explained, in sum and substance, to ICE agents that he controlled his bedroom and office and that he kept these rooms locked. REINER unlocked these rooms for ICE agents on September 12, 2006. REINER also admitted that all of the seized computers and equipment belonged to him. Specifically, REINER acknowledged his ownership of and control over all of the seized external hard drives, which REINER retrieved from his office and personally handed over to ICE agents. REINER, stated, in sum and substance, that these external hard drives contained only software applications. Following mirror imaging⁵ of each of the seized hard drives, on or about September 25-26, 2006, a search was conducted on the mirror images of the hard drives, and it revealed the possession and storage on one of the external hard drives of approximately seventy (70) still images and forty-two (42) video clips which previously traveled in interstate and foreign commerce and which appear to depict children engaged in sexually explicit activities. Two (2) still images and

⁵ Forensic examination of hard drives first requires that a copy or "mirror image" of the hard drive be made. The computer equipment seized from REINER amounted to approximately two terabytes of computer data. The imaging of each of these hard drives took place prior to the examination of any of the hard drive mirror images.

four (4) video clips⁶ contained on this hard drive are described as follows:

- a. The computer file entitled "2c67a4dd-jpg.jpg" which is a still image depicting a prepubescent female and prepubescent male, under the age of ten years, performing oral sex on a nude adult male. This image is of two known victims (i.e., real children who have been identified by law enforcement);
- b. The computer file entitled "009bond01-jpg.jpg" which is a still image depicting a prepubescent male, bound and gagged, next to the genitals of a nude adult male;
- c. The computer file entitled "MB.MPG" which is a video clip lasting approximately ten seconds, which depicts an adult male performing oral sex on a male child who appears to be less than five years of age;
- d. The computer file entitled "zach2.mpg" which is a video clip lasting approximately thirty-six seconds, which depicts an unknown male performing oral sex on a prepubescent male child;
- e. The computer file entitled "czech_9.mpg" which is a video clip lasting approximately eleven seconds, which depicts an unknown male masturbating a prepubescent male child; and
- f. The computer file entitled "J-BB1.MPG" which is a video clip lasting approximately eight seconds, which depicts two nude prepubescent boys, one of whom is masturbating the other.

⁶ Although it is possible to manufacture still images which appear to depict children engaged in sexually explicit activity using "morphing" technology, based upon my training and experience it is not currently possible to create video clips of such activities without using actual children. Moreover, I am aware of a June 24, 2003 report from the FBI Forensic Audio, Video and Image Analysis Unit, which expert opinion concludes that the current state of the art in computer animation is insufficient to create "realistic" full-motion video clips of any appreciable duration depicting children engaged in sexually explicit activity without using real children.

WHEREFORE, Your deponent respectfully requests that the defendant MICHAEL KELLY REINER be dealt with according to law.

SA Angela Hammons

supplement-free dietary programs help fuel the boy's development, and are able to work under stressful conditions.

Trainees are organized into units of four boys each, generally of similar age and intended use. A typical day at Heritage includes obedience exercises, practical teaching, counselling sessions, individual and group athletics, and personal workouts. Any punishment is meted out publicly, in front of his unit mates; punishments for serious infractions are witnessed by all trainees at the morning gathering.

Obedience school is an intensive six-month program.
\$6,599 per month

Junior Obedience School

Heritage's Junior Obedience School is a specially adapted program for slaves aged 12 and under. The special needs of younger slaves, who are generally more enthusiastic and accepting of their position, are carefully treated, ensuring long, satisfactory service from your boy.

Following the same basic principals as Obedience School, this program provides specific and proven counselling geared to preparing the boy for his life as a slave. Emphasis is put on the relationship important and highly regarded piece of property, and on the importance of and obedient to their masters. The same basic skill sets are covered as in the School program, with special units on circumstances faced by young slaves.

Junior Obedience School is a 6-month program.
\$6,999 per month

Optional Academics Module

For slaves enrolled in the regular or Junior Obedience School programs, Heritage offers an optional academics module to provide your slave with basic literacy and numeracy skills. This add-on package adds lessons in reading, writing, and arithmetic in a plan personalized for each boy and your needs. Custom programs can be designed (at additional cost) to bring a slave's skills to a superior level or to cover specific needs.

Heritage strongly recommends that all slaves have a minimum of the equivalent of third grade reading and writing skills and sixth grade

math skills if they will be used for any sort of domestic duties, including kitchen chores.

additional \$1,499 per month

Obedience Graduate School

This advanced program for graduates of Obedience School or an equivalent program focusses on immediate and perfect obedience. Designed for the most of owners, our intensive training and counseling teaches boys how to react and obey without hesitation any instruction which they are given, including those that may cause them harm or pain, while maintaining their independence and control. The intent is to create a most valuable slave with a very high resale value.

Obedience Graduate School is an 8-month program for boys 13 or older. A minimum training and attitude is required to enter this program.

\$8,999 per month

Slave Boot Camp

Slave boot camp is a short introduction to being owned for boys who have been decertified. Focusing on the essentials of service, this brief program is a must for a slave who is having trouble adjusting to their new duties. Training covers control, respect, and basic practical skills, including household, elementary cooking, intimate services, and general yard tasks. This program does not guarantee but is appropriate for slaves entering secure or supervised uses.

Slave boot camp is a 6-week program for boys 10 or older. \$2,999 for the entire program.

Pony Boy Program

The Heritage Pony Boy program is designed to prepare your boy for use as a pony, suitable for entry into competition and races, or for your day-to-day and hauling needs. A mature, trained pony is quite capable of pulling considerable weight and can be a major help in traditional farming, as well as acting as a low-cost alternative for transportation over short to medium distances.

The Heritage program trains your slave in all common control techniques, including voice commands and lead training. Slaves are all fitted with modern bits, blinkers, and harnesses to familiarize them with normal pony tack, and training alternative commands and control with reins, ensuring a wide skillset for use in any need. Endurance and strength training are an integral part of the training basics, and extensive training in movement in formation at a walk, trot, canter and gallop.

the slave's use in pair and team pulling, along with individual work.

The pony boy program is open to boys of up to 20 years of age, and is a full training program. Owners of slaves under the age of fourteen are advised that age are generally still insufficiently developed for heavy pulling, and our program is primarily on show pulling; slaves 8 and younger are trained exclusively in the competitive technique. Slaves entering the Heritage pony boy program are obedience-trained prior to program start; if needed, an accelerated 2-month school period is available.

The Heritage pony boy program is an intensive year-long curriculum. \$8,995

Slave Summer Camp

This summer slave exploration camp is designed to help free boys who want to know what it's like to be a slave.

*8 weeks, July & August annually. Not open to decertified boys.
\$2,499*
